

Techrider: BRDN - Trio

We travel with a Behringer XR18 Interface. All tracks are already mixed and we basically only have to go from our unbalanced main out to your console. Further tweaks are possible via the connected Ipad, which functions as a controller for the XR18. In-Ear-Monitoring also runs directly through the XR18.

Lighting: Preferably dark stage, lighting from behind with occasional spotlights.

Ch.	Instrument	Notes
1	Kick	Mic of your choice
2	Snare	Mic of your choice
3	Tom M	Mic of your choice
4	Tom H	Mic of your choice
5	OH 1	Mic of your choice
